Delivery times / Technical control / Spot delivery

April 2022

GENERAL INFORMATION

DELIVERY TIMES AND TECHNICAL CONTROL

PTV Spot

- Full-screen exchange of a linear TV spot (ProSiebenSat.1's own advertising) with another spot in the commercial break.
- The innovative PTV spot allows targeted control according to target groups through defined booking environments.
- Currently only spots with a length of 20 seconds can be used.

Delivery times

- Lead time for delivery of video ads: at least five working days

Technical control

Upon delivery, the advertising materials are subjected to a check to ensure that they meet the technical specifications. Despite inspection, problems may occur even after the campaign flight has started.

Seven.One Media reserves the right to exclude advertising media in whole or in part from broadcasting if:

- There are complaints from viewers/users after the start of the campaign.
- It subsequently turns out that the advertising material disturbs or impairs performance or use
- The advertising material misleads the viewer/user

SPOT DELIVERY
